Where international, state, and county boundaries coincide, the map shows the boundary symbol for only the highest level of these boundaries.

1 A "1" following a place name indicates that the place is also a full MCD; in the case of MCDs, the census of population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps indicating a census of vessel tracts. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

2 A "2" following a block number indicates that the block number is repeated

- <sup>1</sup> A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population number of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
